Student – BSCS

---

Driven by a passion for solving complex problems, I craft innovative solutions to enhance user experiences. Committed to pushing technological boundaries for intuitive designs, I thrive on challenges with my creativity.

## Experience

---

### **Creative Chaos** (JUN-AUG 2024)

*Mobile Development Intern*

Developed a Flutter-based mobile app for an AI-powered platform, enabling tutor-student matchmaking. Collaborated with a remote team using Kanban methodology and JIRA to efficiently manage tasks. Gained hands-on experience in mobile app development and agile project management.

## Projects

---

### **Tutona**

*Mobile Application*

Developed a Flutter app for AI-powered tutor matchmaking, enabling tutors to create profiles, send requests to students, and accept requests through the portal.

### **Educationist**

*Mobile Application*

Launched 'Educationist', providing easy access to O' level past paper catalogues with 10K+ installs, simplifying exam preparation for students.

### **Vibes Connect**

*Full stack Social Media Website*

Built 'Vibes Connect' using AI for semantic analysis and a recommender system, enhancing social connections through user personas.

### **Reinnovate Labs**

*Frontend Website*

Created a responsive UI for Reinnovate Labs, showcasing CAD designs, improving client acquisition, and boosting visibility.

### **Cyber Soar**

*Mobile Application – Game*

Developed 'Cyber Soar', a game with three modes where players navigate as a robot through pipes, providing engaging and addictive gameplay.

### **NERDLE**

*Desktop Application – Game*

Created 'NERDLE', a word game optimized with AVL trees, offering dynamic difficulty adjustments for an engaging player experience.

### **Flappy SHS**

*Desktop Application – Game*

Developed 'Flappy SHS', a Flappy Bird clone in C++ using SFML, applying object-oriented principles for smooth gameplay and modular code structure.
